OWN OR RUN A BUSINESS?

Forth Valley College are delivering Foundation Apprenticeships in partnership with secondary schools across the Region. We need employers to work with us to give our young people insight and experience to fulfill the work based learning element of the programmes.

Can you help us with a range of experiences which include:

- Guest speakers from relevant sectors/business
- Delivering masterclasses on relevant topics
- Hosting workplace visits
- Setting project briefs
- Providing a work placement

WORK PLACEMENTS

All schools need businesses to support their pupils with work based learning.

Every pupil will, at some point, attempt to enter the workplace and your support and professional expertise can help to prepare young people, giving them a taste of what will be expected.

CAN YOU HELP?

Some individuals need a little bit more support during a work placement, we are very keen to speak to businesses who are sympathetic to supporting young people who may have additional support needs and other barriers.

CAN YOU SUPPORT ANY OF THESE INNOVATION FUND PROJECTS?

#NOWRONGPATH

On Scottish Exam Results Day, Tuesday 6th August 2019, DYW Forth Valley will support the successful national social media campaign **#NoWrongPath**, to celebrate the range and diversity of career paths that are followed after leaving school.

We encourage business and education alike, to share a snippet of your story - what you did when you left school and where you are now.

We want to convey a message to young people that there are a variety of ways to get into a variety of job roles - that there is **#NoWrongPath**
