STEM INDUSTRY PARTNERSHIPS INSPIRE THE NEXT GENERATION

The Helix Park, Falkirk was alive with all things Science, Technology, Engineering and Maths when 330 pupils took over the great lawn. This event is the coming together of pupils and STEM industry experts which creates a powerful and inspirational learning environment.

The event is a fantastic opportunity for learning outside the classroom where industry experts, both local and national, share their love for STEM through the delivery of interactive workshops. Pupils had tremendous fun learning about the variety of STEM careers as well as the skills & knowledge required to be a success.

The event helped young people to:

- understand the role STEM plays in their everyday lives
- explore the opportunities studying STEM subjects can bring to them in the future
- learn more about the variety of STEM career pathways try out different STEM skills
- try out new STEM skills

The Helix Park, home of the Kelpies, also welcomed over 3000 visitors the following day for even more interactive STEM inspiration aimed at families and the wider community.

Click on the event video button to see the day in action and to hear from industry experts, pupils and teachers on what taking part meant to them.
